STATE OF MAINE.

AUGUSTA, June 30, 1910.

To His Excellency, the Governor, and the Executive Council:

I have the honor to herewith submit the fourth annual report of the Auditor of State Printing, for the year ending December 31, 1909.

Respectfully,

E. N. CARVER,

Auditor of State Printing.

St. 1. b. 9 v. 4

FINANCIAL STATEMENT 1909

COST OF PRINTING AND BINDING IN 1909.

On subsequent pages of this report will be found in detail a tabulated statement of the items and cost of printing and binding done for the various State departments, institutions, boards and commissions during the year 1909, followed by a summary of totals by departments. These statements exhibit plainly for the especial use of departments their own expenditures for printing and binding during the year, and a comparison with totals of printing items for three preceding years.

CLASSIFICATION.

	Printing.	Binding.
General printing for departments, etc.,	*\$34,598.08	13,364.20
Legislative printing,	34,637.69	5,665.25
Totals for 1909,	\$69,235.77	19,029.45

* Including one estimated item of 1909 printing and binding, not completed at date of closing this report.

COMPARISON WITH FORMER YEARS.

	1906.	1907.	1908.	1909.
General printing,	\$26,953.66	\$30,822.24	\$26,502.35	\$34,598.08
Legislative printing,		23,388.81		34,637.69
Ballot printing,	3,549.32		7,863.37	
Totals,	\$30,502.98	\$54,211.05	\$34,365.72	\$69,235.77

REMARKS ON GENERAL PRINTING.

In the foregoing tabulated statement it will be observed that there is a marked increase in the general printing (for departments, etc.) in 1909, over previous years. The 1908 record is the lowest of the four complete years. Comparing 1906 and 1907, the first two-year period under the competitive system, there is an increase of cost the second or legislative year over the first year, of \$3,868.58. Taking the second

period of two years, 1908 and 1909, there is an increase of cost in the legislative year over the preceding year of \$8,095.73. Our first contract ruled the prices of 1906-1907, while our second contract, with distinctly lower rates, governed the prices of 1908-1909. The figures, therefore, indicate a considerable increase in the amount of printing, due to the demand arising from increased departmental work as required by the enactments of the legislature of 1909.

REMARKS ON LEGISLATIVE PRINTING.

The legislative printing for 1909 cost \$11,248.88 more than that of 1907. This is accounted for in part by the larger number of bills introduced at that session, and the larger number and volume of laws enacted, and in part by the increase in prices on the legislative printing in 1909 over those of 1907. Confirming statements in former reports of this department, events have proven that conditions under which this class of the state printing is necessarily done almost preclude competitive prices.

The legislative printing of 1909 was opened to bids under three distinct and widely advertised competitions, extending from October 25, 1907, to Feb. 14, 1908. In the first of these Burleigh & Flynt bid on the entire class, the Sentinel Publishing Company and the Maine Farmer Publishing Company bidding on minor portions. These bids were all rejected. In the second competition the Sentinel Publishing Company alone made proposals on the entire class, Burleigh & Flynt omitting four of the most difficult divisions. All these bids were rejected and a third competition duly advertised. This resulted in but one proposal, that of Burleigh & Flynt. Of all the proposals received in the three competitions, covering the entire class, that of the Sentinel Publishing Company was the highest and the last one of Burleigh & Flynt was the lowest, and was accepted.

The 1911 legislative printing now under contract is based on considerably lower prices than that of 1909. A later article in this report treats of contracts now in force.

REMARKS ON BALLOT PRINTING.

The preceding table shows the cost of printing the Australian ballot and accessories for 1906 and 1908. The first represents the cost for September election with one state ballot only. The second represents the cost of the September and November elections, with the increase caused by addition in September of an amendment ballot as well as candidates' ballot; and in November including congressional candidates' ballots for two districts as well as presidential electors' ballots for entire State.

RESULTS OF COMPETITIVE SYSTEM.

Herewith is presented a tabulated statement of actual cost of state printing for the years 1908 and 1909, the amount it would have cost under the prices and system of 1905 and preceding years, and the saving resulting from the competitive system and direct supervision in behalf of the State. In the two years' work the many thousands of items have been individually figured through in detail, applying the 1905 prices and so far as possible the accompanying conditions.

	Cost under competitive system.	Would have cost under former system	Difference representing gain.	Difference representing loss.
Book printing, 1908,.....	\$20,277.25	\$26,887.20	\$6,609.95	
Job printing, 1908,	6,225.10	10,424.12	4,199.02	
Ballot printing, 1908,.....	7,863.37	14,114.19	6,250.82	
Book printing, 1909,.....	26,640.46	34,310.49	7,670.03	
Job printing, 1909,	7,957.62	12,625.48	4,667.86	
Legislative printing, 1909.....	34,637.69	32,881.51		\$1,756.18
Totals,	\$103,601.49	\$131,242.99	\$29,397.68	\$1,756.18

The above figures show a total saving to the State in two years of printing, of \$27,641.50. Deducting salaries and expenses of the office of Auditor of State Printing for 1908 and 1909, amounting to \$5,812.03, and we have net saving of \$21,829.47.

The report of this department for 1908 showed in a similar manner the net saving for the years 1906 and 1907 to be \$20,503.27. Thus we have a total saving of \$42,332.74 in four years or a yearly average of \$10,583.19.

STATE BINDING.

The state binding has been placed under the competitive system during the year 1909, for the first time. The classification, contracts and general supervision has been conducted through this department on the same plan as the state printing. The prices secured through competitive bids have been of material advantage to the State, and the results indicate a saving in cost not far from the ratio of saving in the state printing. In this matter an accurate comparison of the total cost of various classes of bindery work with former prices is not possible, as much detail then had no fixed price under the statutes. So far as possible we have shown comparison of unit prices on succeeding pages of this report.

CONTRACTS FOR 1910-1911.

Present contracts for printing and binding entered into in 1909 extend from Jan. 1, 1910, to June 30, 1911. The year and one-half period was adopted to bring the fiscal year to close at a comparatively slack time when work in hand could most promptly be cleared up, rather than at the busiest season. The plan is now under consideration to make our next report cover the year and one-half period corresponding with the contracts.

The printing contracts are now held by the following firms: Class A, book printing, Burleigh & Flynt, Augusta; Class B, job printing, Wallace S. Ladd, Augusta; Class C, legislative printing, Burleigh & Flynt, Augusta; Class D, ballot printing, Burleigh & Flynt, Augusta; Class E, half-tone inserts, Lewiston Journal Company, Lewiston.

The binding contracts are held by the following firms: Class A, book and pamphlet work, Harry W. Reid, Augusta; Class B, ruling blanks, Merrill & Webber Company, Auburn; Class C, legislative work, Harry W. Reid, Augusta; Class D, blank books, Merrill & Webber Company, Auburn; Class E, miscellaneous binding and repair work, Harry W. Reid, Augusta.

These awards were made after the sharpest competition among bidders known in the history of these competitive contracts, and after one complete set of proposals covering the entire field of state printing and binding had been rejected as too high and proposals re-advertised. In the second competition there were more bidders than in the first, and the prices were reduced on the bulky and costly divisions to such an extent that the saving to the State in consequence of the later competition, conservatively estimated, must reach the round numbers of from \$7,000.00 to \$8,000.00 a year.

Especially gratifying from the standpoint of the State is the fact that legislative printing seems at least to have entered the competitive class, and the latest competition brought the prices considerably below those of 1909.

CONSTRUCTIVE PRINTING.

By the comparison on a preceding page we show that in the ballot printing of 1908, there was a saving of \$6,250.82, equal to over 79 per cent when compared with 1905 statute prices. In arriving at this result we have not applied the principle of "constructive printing" in detail, but rather applied the higher prices of 1905 on composition and press work to the bill as our experience with the matter indicates the printer would have rendered.

"Constructive printing," as contemplated by the statutes, according to

the findings of the legislative committee on state printing in 1905, (see Senate Document 245), would have permitted a charge of \$57,669.72 for this work, which cost under competitive contracts \$7,863.37.

While we use this instance to illustrate one of the possible vagaries of the former system of statute governed prices, it may further serve to show that the former state printers, by introducing the human element, were able to find a middle ground of action that savored of equity more than did the law.

CONTRACT VS. STATUTE PRICES.

The following table has been carefully prepared because of its usefulness in this office as a matter of constant reference, its value in aiding the printers and binders in making proposals in the future with more accurate knowledge of details, and finally, because its publication constitutes an asset to the State in the controlling influence it may have on future proper levelling of prices.
